Acknowledgements

The Public Library Association is grateful to the many individuals and institutions who contributed to this fifth annual report of the Public Library Data Service:

Public librarians who willingly filled in yet another questionnaire, contributing their information for the use of colleagues, the profession, and others who care about public libraries.

Members of the PLA Public Library Data Service Advisory Committee for providing direction and advice for this year's report: Jim Fish, Michael Garofalo, Sheldon Kaye, Keith Lance, Don Napoli, and Jan Feye-Stukas, Chair..

Faculty and students at the School of Library and Information Studies, University of Wisconsin-Madison: Debra Wilcox Johnson, Jane B. Robbins, and Douglas L. Zweizig. Also students at the school: Project Assistants: Chung-Suk Kim, Seong-Hee Kim,

and Linda Fidler. Data input was done by Fen Fang Chung and Andrew Clarkowski.

The staff of the Baltimore County Public Library, Charles Robinson, Director, who contributed time and expertise for graphic design, layout, and production.

The Public Library Association's objective in developing the Public Library Data Service is to contribute to the improvement of public library planning and management. We hope this annual report will be useful to you. Feel free to send suggestions on how we could make it better to:

Scope of This Report

The following groups of public libraries were invited to respond to the fifth annual Public Library Data Service Questionnaire:

All libraries which participated in the 1991 *Public Library Data Service Statistical Report*.

All libraries previously included in statistical reports of the Urban Libraries Council or "Statistics of Public Libraries in the United States and Canada Serving 100,000 Population or More" previously published by the Allen County Public Library.

A randomly selected group of 400 libraries serving populations of 100,000 or fewer.

All public libraries which contributed to the Public Library Development Project.

Any other public libraries requesting inclusion.

Data from libraries in these groups may not be in the following report if the library did not return the questionnaire or if it was returned too late for inclusion.

This 1992 report includes data from 574 public libraries, 12 more than the 1991 report. This report also features for the first time a Technology in Public Libraries Survey in Section VI.

Reflecting on PLDS: Public Libraries Over Five Years

The publication of the Statistical Report '92 marks the five-year anniversary of this voluntary data collection project. The information collected during this period provides a glimpse of the support for and efforts of public libraries. This section examines the five-year data for 1987 to 1991. These data are reported in the statistical reports for 1988 through 1992.

Overall, the report reflects most accurately the trends in public libraries serving over 100,000 residents. There has been, however, an increase in reporting by libraries serving 50,000 to 99,999. The number of libraries in this population group reporting in 1992 has increased over 50% from 1988. This population range remains as a growth area for PLDS. While selected libraries serving less than 50,000 have contributed to PLDS, the low percentage reporting will not allow generalizations for libraries in that population group (see the chart at the beginning of Section I). This analysis will focus on the data from libraries serving 50,000 or more.

The data used for comparisons is the median (50 percentile) for all population groups. The only exception to this is in the discussion of role selection, which reports totals.

Resources

Clearly, the current literature in the library field reflects a growing concern for the support of public libraries. The past five years for public libraries do show a gradual increase in expenditures per capita, as reported in Table 1. The exception to this is for the group of libraries serving over one million. While there was a gradual increase in dollars from 1987 to 1989, the 1991 data show a drop of nearly \$2.00 per capita. The largest percentage growth from 1987 to 1991 was in the population group 500,000 to 999,999 with a 56% change. The dollar figures have not been indexed, so the growth is not as dramatic as it first appears. Even when adjusted using the Consumer Price Index, however, there is still an increase in spending power for libraries in all the population groups except those serving over one million.

TABLE 1
EXPENDITURES PER CAPITA

1,000,000+	\$14.97	\$16.41	\$17.75	\$17.43	\$15.48
500,000-999,999	\$13.41	\$16.85	\$16.10	\$19.72	\$20.86
250,000-499,999	\$12.68	\$14.00	\$14.93	\$15.67	\$16.64
100,000-249,999	\$13.65	\$13.51	\$14.38	\$15.78	\$16.95
50,000-99,999	\$17.89	\$20.05	\$20.36	\$21.99	\$23.75

While libraries still find their major support from local dollars, alternative sources of income (excludes state and federal dollars) comprise on the average 5.6% of the libraries' total income in 1991. This percentage fluctuates, however, on an annual basis; the lowest percentage reported by one population group in any of the five years was 3.7% and the highest 8.9%. In all cases, the "other sources" category was more than federal dollars. The federal dollars made up less than one percent of the total income in all population groups.

The percentage of library funds spent for staff and materials has held constant over the five-year period. Overall, total staff FTE has grown when comparing 1991 to 1987, but only very gradually. In libraries serving over one million, the total number of FTE staff (median) has dropped by over 200 FTE since a 1989 high; the 1991 figure is lower than that reported in 1987. For those libraries showing a growth of staff, the rate of increase across population groups ranges from 7.5% in the 50,000 to 99,999 group to 8.6% in the 500,000 to 999,999 group. While there has been a gradual growth in staff, the percent of total expenditures for staff remains at approximately 50% across the five-year period. The percentage of librarians to other staff fluctuates throughout the five-year period,

with no evidence that the percentage has shifted in one direction. The ratio across population groups averages about 2.8 "other staff" per "librarian."

When examined across all population groups, percent of total expenditures for materials shows no trend for the five-year period, with fluctuations annually in some population groups. Libraries serving populations of 50,000 to 499,999, however, show a gradual decrease in percentage since 1988. The range of percentages in 1987 was 14.8% to 15.3%; in 1991, the range was 14.1% to 14.8%. In contrast, the expenditures per capita for materials has been gradually increasing in all population groups until 1991 (Table 2). When adjusted using the Consumer Price Index, only two population groups have shown an increase in buying power: 500,000 to 999,999 and 100,000 to 249,999.

Output measures

The use of output measures by libraries is documented in the five PLDS statistical reports. Output measures are reported by libraries in each population group, with the most frequently available measures being: circulation per capita, registration as a percent of the population, library holdings per capita, collection turnover, and reference transactions per capita. These five measures can be calculated for the majority of PLDS libraries. The least likely to be reported are fill rates and document delivery rates.

Circulation remains the most frequently reported measure of use. Overall, total circulation is up when compared to 1987 for libraries serving 50,000 to 999,999. When examined as a per capita measure, an increase is seen for libraries in all population groups. Table 4 summarizes the circulation per capita data.

TABLE 4
CIRCULATION PER CAPITA

POPULATION	1987	1988	1989	1990	1991
1,000,000+	3.3	3.3	3.7	3.6	3.9
500,000-999,999	4.3	5.5	5.4	5.7	6.6
250,000-499,999	5.0	5.1	5.2	5.5	5.9
100,000-249,999	4.9	5.1	5.5	5.6	6.2
50,000-99,999	7.7	7.0	7.2	7.6	7.8

Another indicator of the community's response to the library is registration as a percent of population. The percentage fluctuates over the five-year period in each population grouping, so no overall trends are discernable. During 1987, the range was from 32.2% to 53.5%. During 1991, the range narrowed, with a low figure of 39.3% and a high of 53.9%.

Use of reference services has increased very gradually as evidenced by the reference transactions per capita. The largest public libraries (over a million) also offer the most reference service per capita: 1.6 in 1991. Table 5 shows the positive movement of libraries in delivering reference service.

TABLE 5
REFERENCE TRANSACTIONS PER CAPITA

POPULATION	1987	1988	1989	1990	1991
1,000,000+	1.5	1.5	1.6	1.6	1.6
500,000-999,999	0.8	1.1	1.0	1.0	1.2
250,000-499,999	0.8	0.9	0.9	1.0	1.1
100,000-249,999	0.6	0.6	0.7	0.7	0.8
50,000-99,999	0.9	1.0	0.8	1.0	1.1

In-library use per capita and visits per capita measure different types of library use. Across time and population groups in the PLDS data no pattern was evident for either measure. The responses showed a wide range of results on these two output measures. The ratios for in-library use per capita ranged from 1.3 to 3.6. Even a wider spread was seen in the library visits per capita ratios, which ranged from 1.7 to 5.4.

Holdings per capita, as reported in the resources section, have gradually increased. Collection turnover has remained constant until this year. Since turnover is a ratio using holdings and circulation, the increased circulation reported in 1991 combined with stable holdings most likely accounts for the increase in turnover rates.

The results on fill rates and document delivery come from a minority of the public libraries, so it is difficult to discern trends within population groups. Across population groups and time, however, a

pattern in the fill rates can be identified. For reference completion, the resulting percentages are increasing. In 1987, the lowest figure reported was a 76.0% completion rate as compared with 85.9% completion as the low figure in 1991. For title fill rate, the percentages over time are primarily in the mid 60s and low 70s. For subject/author fill rate, the percentages are primarily in the 70s. Browser fill rate has the highest results, ranging from 90% to 94%. In contrast, the percentages for document delivery present a very wide range for both the seven-day and 30-day figures. The only clear pattern is that the range of responses for the 30-day measures are approximately 20% higher than the seven-day.

Role selection

While most of the growth reported in this summary has been gradual, the number of libraries that have selected library roles since 1987 has increased dramatically. The roles were described in *Planning and Role Setting for Public Libraries* in 1987 (which corresponds to the first year of the PLDS data). In that year, only 70 libraries reported using the role selection exercise. By 1991, more than four times as many libraries reported using the service roles. Over half of the PLDS libraries (311) are now reporting their role selections.

Which are the most frequently chosen roles? When the number of libraries choosing a role as primary or secondary is tallied, Popular Materials Library ranks first, followed closely by Reference Library and Preschoolers' Door to Learning. Table 6 summarizes the combined primary and secondary tallies for all five years.

The selection of only primary roles also places Popular Materials Library and Reference Library as the clear favorites for libraries. The Preschoolers' Door to Learning still ranks third, but at a great distance from the first two. It is more likely that Preschoolers' Door to Learning is chosen as a secondary role. As such, it is clearly the leading choice for secondary role, followed by Independent Learning Center and Formal Education Support Center.

Conclusions

At the simplest level, it is apparent that most libraries are moving forward in terms of financial support and use, although this movement is not dramatic. The direction of this movement, however, is toward "goodness." In addition, public libraries are increasingly using the role selection process to provide insight into that aspect of library planning. Enough libraries are reporting use of output measures to show typical ranges of responses for several of these measures. These ranges are potentially useful to libraries setting targets in their planning processes. The results from this five-year analysis provide an important benchmark for comparison of public library activity in the years to follow.

I. Library Identification

Data reported in this section are arranged alphabetically by the name of the library. Data in all other sections are arranged by size of population served. Use this section to determine the size of the population served by any reporting library.

Responses to these questionnaire items are represented in the Library Identification tables.

The number of U.S. public libraries by population group are reported below. The data for this table were taken from the Federal-State Cooperative System (FSCS) Public Libraries Survey 1990. For comparison, the number of U.S. libraries participating in the 1992 report are also given. In addition to the total number of U.S. libraries responding, 29 Canadian libraries responded, for a total of 574 libraries. The Canadian libraries have not been included in chart below.

A. GENERAL INFORMATION

2. **Population of legal service area.** Report the number of people in the geographical area for which the public library has been established to offer services and from which (or on behalf of which) the library derives income plus any areas served under contract for which this library is the primary service provider. See Chapter 5 of *Output Measures for Public Libraries*, second edition (OMPL2, ALA, 1987), for suggestions regarding sources for this figure.

Population of legal service area _____

5. **Central library.** The single unit library or the unit where the principal collections are kept and handled, also called "Main Library." A library system may or may not have a central library. Some systems may have an administrative center which is separate from the principal collection and is not open to the public. This type of building should not be reported.

Do you have a central library? (circle one) Yes No

6. **Branch libraries.** Report number, using the following definition: Branch libraries are auxiliary units which have all of the following: (1) separate quarters, (2) a permanent basic collection of books, (3) a permanent paid staff, and (4) a regular schedule for opening to the public.

Number of branches _____

7. **Bookmobiles.** Report number, using the following definition: A truck or van especially equipped to carry books and other library materials and serve as a traveling branch library. Count vehicles in use, not stops, during most recent fiscal year.

Number of bookmobiles _____

II. Financial Information

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Derivative numbers were determined in the following manner:

$$\text{Expenditures per capita} = \frac{\text{Total operating expenditures}}{\text{Population of legal service area}}$$

$$\text{Salaries as a percent of expenditures} = \frac{\text{Expenditures for salaries and wages}}{\text{Total operating expenditures}}$$

$$\text{Materials as a percent of expenditures} = \frac{\text{Expenditures for library in materials}}{\text{Total operating expenditures}}$$

$$\text{Materials expenditures per capita} = \frac{\text{Expenditure for library materials}}{\text{Population of legal service area}}$$

This year a new question regarding change in local income was added (#18). Data from this question are reported in the table under "Local change (%)."

Unless otherwise noted, all figures reported on this questionnaire should be accurate as of the end of the most recently completed fiscal year.

1. Ending date for latest fiscal year. / /

For Items 8 and 9 report the current salary regardless of fiscal year.

8. Current annual salary of director. \$

9. Salary of beginning librarian. Report the salary that would typically be paid to a beginning librarian with an M.L.S. degree and no professional experience.

Current annual salary of beginning librarian \$

SOURCES OF INCOME

Operating finances are defined as follows: the current and recurrent income for, and costs necessary to the provision of library service, such as personnel, library materials, binding supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of the physical facility. Note: Local accounting practice shall determine whether a particular source of income or expense is an operating appropriation or expense, regardless of the examples just given. This questionnaire DOES NOT ask for capital income or expense, however you define it.

Unless otherwise noted, all figures reported on this questionnaire should be accurate as of the end of the most recently completed fiscal year.

13. Local. Report all tax and nontax receipts allocated by the community, district, or region of the public library and available for expenditure by the public library. Do NOT include the value of any contributed or in-kind services or the value of any gifts, donations, fines, or fees.

Income from local government \$

14. State. Report all revenue from funds collected by the state and distributed to public libraries, for expenditure by the public libraries, EXCEPT for federal monies distributed by the states.

Income from state governments \$

15. Federal. Report all revenue from funds collected by the federal government and distributed to public libraries for expenditure by the public libraries, including federal monies distributed by the states.

Income from federal government \$

16. Other income. Report all income other than that reported in Items 13-15. Include, for example, gifts, donations, interest, fines, and fees. This amount is the difference between the sum of the income reported in Items 13-15 and the total income, reported in Item 17. Do not include the value of any contributed services or the value of in-kind gifts and donations.

Other income \$ _____

17. Total income.

Total of Items 13-16 \$ _____

18. Does the local income for the current fiscal year reflect an **increase** or a **decrease** in actual dollars (i.e., not adjusted for inflation)?

[Please check [X] one.]

☐ **increase:** Our current local income is _____ % **greater** than the income reported in item 13.

☐ **no change:** Our current local income is the **same** this year as reported in item 13.

☐ **decrease:** Our current local income is _____ % **less** than the income reported in item 13.

OPERATING EXPENDITURES

19. Salaries and wages. This amount should be the salaries and wages for all library staff except plant operation and maintenance staff for the fiscal year. Salaries for plant operation and maintenance staff, if paid from the library budget, should be reported as other expenditures (Item 22). Include salaries and wages before deductions, but exclude employee benefits.

Expenditure for salaries and wages \$ _____

20. Employee benefits. These are defined as follows: The benefits outside of salary and wages paid and accruing to an employee except plant operations and maintenance staff, regardless of whether the benefits or equivalent cash options are available to all employees. Benefits for plant operation and maintenance staff, if paid from the library budget, should be reported as other expenditures (Item 22). Include amounts spent by the library for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits. If these benefits are not paid from the library budget, mark N/A.

Expenditure for employee benefits \$ _____

21. Library materials. Include expenditures for material in all formats purchased for use by patrons.

Expenditure for library materials \$ _____

22. Other operating expenditures. Include all operating expenditures not reported in Items 19-21. Report salaries and benefits for plant operations and maintenance staff if paid from the library budget.

Expenditure on all other items \$ _____

23. Total operating expenditures. Total of Items 19-22.

Total operating expenditures \$ _____

III. Library Resources and Community Measures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

3. **Library registration.** Report this figure only if the library has purged its file at least once *within* the last three years. If not, indicate by putting N/A in the space. See Chapter 5 of OMPL2 for suggestions for determining this figure.

Library registrations _____

4. **Holdings.** For the purpose of this data service, holdings will be defined as in OMPL2: the number of cataloged items (number of items, **NOT** number of titles) plus paperbacks and videocassettes even if uncataloged. Do **NOT** include periodicals whether cataloged or uncataloged.

Holdings _____

B. STAFF (FULL-TIME EQUIVALENT)

Report figures as of the last day of the fiscal year. Include unfilled positions if a search is currently underway. Report FTE in terms of your standard work week as long as that standard week is between 35 and 40 hours. If not, please convert to 40 hours a week.

10. **Librarians.** Report FTE of all who are: Staff members doing work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. The usual educational requirement is a master's degree (or its historical antecedent) from a library education program. Include staff in managerial positions as well as in other positions.

Number of librarians (FTE) _____

D. COMMUNITY MEASURES

Items 24-28 below are optional. Age and education measures were selected for inclusion in the Public Library Data Service because they are known to be related to library service. These particular categories of age and education were selected because they are available for most legal service areas from the County and City Data Book (CCDB). If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please mark NA in each blank.

AGE

24. The percentage of people under 5 years old is _____ %.
25. The percentage of people from 5 through 14 years old is _____ %.
26. The percentage of people 65 years old or more is _____ %.

EDUCATION

27. The percentage of people 25 years old and over who have completed 12 years or more of school is _____ %.
28. The percentage of people 25 years old and over who have completed 16 years or more of school is _____ %.

IV. Annual Use Figures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries (OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark in the Not Available space.

ANNUAL COUNTS

The following data elements are either exact counts or annual figures based on counts taken on sample days according to procedures in OMPL. They will be used with population of legal service area to produce per capita measures.

	Central Library	Total for All Branches	Total	Not Available
29. Annual circulation (OMPL2 p.42-44)	_____	_____	_____	_____
30. Annual in-library materials use (OMPL2 p.44-47)	_____	_____	_____	_____
31. Annual reference transactions (OMPL2 p.65-69)	_____	_____	_____	_____
32. Annual number of library visits (number of individuals entering the library)(OMPL2 p.37-41)	_____	_____	_____	_____
33. Annual program attendance (OMPL2 p.71-72)	_____	_____	_____	_____

F. INTERLIBRARY LOAN

40. Interlibrary loan. An item of library material, or a copy of the material, is made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are *not* under the same library administration.

- a. Loans provided to other libraries _____
- b. Loans received from other libraries _____

V. Output Measures and Role Selection

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

The per capita figures in these tables were determined by dividing the following annual counts by the reported population of the library's legal service area:

- ☛ Circulation
- ☛ In-Library Use
- ☛ Visits
- ☛ Reference Transactions
- ☛ Holdings

The basis for the remaining figures is as follows:

$$\text{Collection Turnover} = \frac{\text{Annual Circulation}}{\text{Library holdings}}$$

E. OUTPUT MEASURES

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries (OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark in the Not Available space.

PERCENTAGES

Percentage

Not Available

These data are obtained using procedures described in OMPL2.

34. Reference completion rate (OMPL2 p.69-72)

35. Title fill rate (OMPL2 p.50-62)

36. Subject and author fill rate (OMPL2 p.50-62)

37. Browsers' fill rate (OMPL2 p.50-62)

38. Document delivery within 7 days (OMPL2 p.62-65)

39. Document delivery within 30 days (OMPL2 p.62-65)

G. LIBRARY ROLES

The roles listed below and a method for choosing among them are described in Chapter 4 of Planning and Role Setting for Public Libraries (PRSPL, ALA, 1987).

For purposes of this questionnaire, we are interested in the roles your library selected using PRSPL. If you have not yet used PRSPL to select roles for your library or you have used different roles from the ones described in PRSPL, please skip question 41.

41. Mark each of your **primary** roles (BUT NO MORE THAN TWO) with a "1."
Mark each of your **secondary** roles (BUT NO MORE THAN TWO) with a "2."
Mark **all remaining** roles with a "3" to indicate the maintenance level.

VI. Technology in Public Libraries Survey

Technology has become increasingly important in public libraries; yet little information is available on the extent to which public libraries have implemented technology. The Technology in Public Libraries Committee of the PLA requested data on three aspects of technology: 1) technology offered to the public for use within the library; 2) technology which is circulated to the public for use outside the library; and 3) technology which can be accessed by the public from outside the library. These summary tables provide insight into the use of technology in public libraries, but should not be interpreted as representative of all public libraries, especially those serving populations less than 100,000.

Blanks in data table mean that the library did not report offering that form of technology.

The summary table at the end of this section reports the number of libraries that either in a central library or branch provide that form of technology.

PLA has offered to collect the following data on technology in public libraries. The data can provide information on the presence and range of technology used in public services. Please check all of the following phrases that describe current services in your library. Results will be published in the PLDS Statistical Report, 1992.

A. GENERAL INFORMATION

2. Population of legal service area. Report the number of people in the geographical area for which the public library has been established to offer services and from which (or on behalf of which) the library derives income plus any areas served under contract for which this library is the primary service provider. See Chapter 5 of *Output Measures for Public Libraries*, second edition (OMPL2, ALA, 1987), for suggestions regarding sources for this figure.

Population of legal service area _____

3. Library registration. Report this figure only if the library has purged its file at least once within the last three years. If not, indicate by putting N/A in the space. See Chapter 5 of OMPL2 for suggestions for determining this figure.

Library registrations _____

4. Holdings. For the purpose of this data service, holdings will be defined as in OMPL2: the number of cataloged items (number of items, NOT number of titles) plus paperbacks and videocassettes even if uncataloged. Do NOT include periodicals whether cataloged or uncataloged.

Holdings _____

5. Central library. The single unit library or the unit where the principal collections are kept and handled, also called Main Library. A library system may or may not have a central library. Some systems may have an administrative center which is separate from the principal collection and is not open to the public. This type of building should not be reported.

Do you have a central library? (circle one) Yes No

6. Branch libraries. Report number, using the following definition: Branch libraries are auxiliary units which have all of the following: (1) separate quarters, (2) a permanent basic collection of books, (3) a permanent paid staff, and (4) a regular schedule for opening to the public.

Number of branches _____

7. Bookmobiles. Report number, using the following definition: A truck or van especially equipped to carry books and other library materials and serve as a traveling branch library. Count vehicles in use, not stops, during most recent fiscal year.

Number of bookmobiles _____

For items 8 and 9 report the current salary regardless of fiscal year.

8. Current annual salary of director. \$ _____

9. Salary of beginning librarian. Report the salary that would typically be paid to a beginning librarian with an M.L.S. degree and no professional experience.

Current annual salary of beginning librarian \$ _____

B. STAFF (FULL-TIME EQUIVALENT)

Report figures as of the last day of the fiscal year. Include unfilled positions if a search is currently underway. Report FTE in terms of your standard work week as long as that standard week is between 35 and 40 hours. If not, please convert to 40 hours a week.

10. Librarians. Report FTE of all who are: Staff members doing work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. The usual educational requirement is a master's degree (or its historical antecedent) from a library education program. Include staff in managerial positions as well as in other positions.

Number of librarians (FTE) _____

11. All other paid staff. Include all other persons paid by the library budget EXCEPT plant operations and maintenance staff. Include paraprofessionals, clerks, pages and professionals other than librarians.

Number of all other paid staff (FTE) _____

12. Total paid staff (FTE). Total of items 10-11 _____

C. OPERATING FINANCES

SOURCES OF INCOME

Operating finances are defined as follows: the current and recurrent income for, and costs necessary to the provision of library service, such as personnel, library materials, binding supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of the physical facility. Note: Local accounting practice shall determine whether a particular source of income or expense is an operating appropriation or expense, regardless of the examples just given. This questionnaire DOES NOT ask for capital income or expense, however you define it.

Unless otherwise noted, all figures reported on this questionnaire should be accurate as of the end of the most recently completed fiscal year.

13. Local. Report all tax and nontax receipts allocated by the community, district, or region of the public library and available for expenditure by the public library. Do NOT include the value of any contributed or in-kind services or the value of any gifts, donations, fines, or fees.

Income from local government \$ _____

14. State. Report all revenue from funds collected by the state and distributed to public libraries, for expenditure by the public libraries, EXCEPT for federal monies distributed by the states.

Income from state governments \$ _____

15. Federal. Report all revenue from funds collected by the federal government and distributed to public libraries for expenditure by the public libraries, including federal monies distributed by the states.

Income from federal government \$ _____

16. Other income. Report all income other than that reported in items 13-15. Include, for example, gifts, donations, interest, fines, and fees. This amount is the difference between the sum of the income reported in items 13-15 and the total income, reported in item 17. Do not include the value of any contributed services or the value of in-kind gifts and donations.

Other income \$ _____

17. Total income. Total of items 13-16 \$ _____

18. Does the local income for the current fiscal year reflect an increase or a decrease in actual dollars (i.e., not adjusted for inflation)?

(Please check [X] one.)

☐ increase: Our current local income is _____ % greater than the income reported in item 13.

☐ no change: Our current local income is the same this year as reported in item 13.

☐ decrease: Our current local income is _____ % less than the income reported in item 13.

OPERATING EXPENDITURES

19. **Salaries and wages.** This amount should be the salaries and wages for all library staff except plant operation and maintenance staff for the fiscal year. Salaries for plant operation and maintenance staff, if paid from the library budget, should be reported as other expenditures (Item 22). Include salaries and wages before deductions, but exclude employee benefits.

Expenditure for salaries and wages \$ _____

20. **Employee benefits.** These are defined as follows: The benefits outside of salary and wages paid and accruing to an employee except plant operations and maintenance staff, regardless of whether the benefits or equivalent cash options are available to all employees. Benefits for plant operation and maintenance staff, if paid from the library budget, should be reported as other expenditures (Item 22). Include amounts spent by the library for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits. If these benefits are not paid from the library budget, mark N/A.

Expenditure for employee benefits \$ _____

21. **Library materials.** Include expenditures for material in all formats purchased for use by patrons.

Expenditure for library materials \$ _____

22. **Other operating expenditures.** Include all operating expenditures not reported in Items 19-21. Report salaries and benefits for plant operations and maintenance staff, if paid from the library budget.

Expenditure on all other items \$ _____

23. **Total operating expenditures.** Total of Items 19-22.

Total operating expenditures \$ _____

D. COMMUNITY MEASURES

Items 24-28 below are optional. Age and education measures were selected for inclusion in the Public Library Data Service because they are known to be related to library service. These particular categories of age and education were selected because they are available for most legal service areas from the County and City Data Book (CCDB). If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please mark NA in each blank.

AGE

24. The percentage of people under 5 years old is _____ %

25. The percentage of people from 5 through 14 years old is _____ %

26. The percentage of people 65 years old or more is _____ %

EDUCATION

27. The percentage of people 25 years old and over who have completed 12 years or more of school is _____ %

28. The percentage of people 25 years old and over who have completed 16 years or more of school is _____ %

E. OUTPUT MEASURES

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries (OMPL). Page references are given in data collection procedures in the second edition of this work (OMPL 2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark in the Not Available space.

ANNUAL COUNTS

The following data elements are either exact counts or annual figures based on counts taken on sample days according to procedures in OMPL. They will be used with population of legal service area to produce per capita measures.

	Central Library	Total for All Branches	Total	Not Available
29. Annual circulation (OMPL 2 p. 42-44)				
30. Annual in-library materials use (OMPL 2 p. 44-47)				
31. Annual reference transactions (OMPL 2 p. 65-66)				
32. Annual number of library visits (number of individuals entering the library) (OMPL 2 p. 37-41)				
33. Annual program attendance (OMPL 2 p. 71-72)				

PERCENTAGES

These data are obtained using procedures described in OMPL 2.

	Percentage	Not Available
34. Reference completion rate (OMPL 2 p. 69-72)		
35. Title fill rate (OMPL 2 p. 50-62)		
36. Subject and author fill rate (OMPL 2 p. 50-62)		
37. Browsers' fill rate (OMPL 2 p. 50-62)		
38. Document delivery within 7 days (OMPL 2 p. 62-65)		
39. Document delivery within 30 days (OMPL 2 p. 62-65)		

F. INTERLIBRARY LOAN

40. **Interlibrary loan.** An item of library material, or a copy of the material, is made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are not under the same library administration.

a. Loans provided to other libraries _____

b. Loans received from other libraries _____

G. LIBRARY ROLES

The roles listed below and a method for choosing among them are described in Chapter 4 of Planning and Role Setting for Public Libraries (PRSP, ALA, 1987).

For purposes of this questionnaire, we are interested in the roles your library selected using PRSP. If you have not yet used PRSP, to select roles for your library or you have used different roles from the ones described in PRSP, please skip question 41.

41. Mark each of your primary roles (not so more than two) with a "1." Mark each of your secondary roles (not so more than two) with a "2." Mark all remaining roles with a "3" to indicate the maintenance level.

A. Community activities center	E. Popular materials library
B. Community information center	F. Preschoolers' door to learning
C. Formal education support center	G. Reference library
D. Independent learning center	H. Research center

H. GENERAL COMMENTS

Please tell us anything about your library that will help us understand your responses in this questionnaire.

TECHNOLOGY IN PUBLIC LIBRARIES SURVEY

PLA has offered to collect the following data on technology in public libraries. The data can provide information on the present and future of technology used in public services. Please check all of the following phrases that describe current services at your library. Results will be published in the *PLDS Statistical Report, 1992*.

Appendix B- Data Coding Decision Guidelines

The following coding rules governed the transfer of data from returned questionnaires to the summaries contained in this report.

General Rules

1. Data are accepted as reported in most cases. Libraries may be contacted to clarify selected responses.
2. If any item is redefined by the respondent on the questionnaire, enter NA or leave blank. Entries are not annotated to document exceptions.
3. If two or more responses are entered in one blank, and it is not possible to interpret the appropriate response, leave blank.
4. If a response is reported in a range, use the lower value.

Statistical Rules

Procedures for determining low, high, median, quartiles, mean and number reporting for a given field:

Values were arranged in ascending order.

The NUMBER REPORTING equals the number who gave a response.

The LOW equals the lowest number value in the sequence.

The HIGH equals the highest number in the sequence.

The MEAN or average is the sum of all responses divided by the NUMBER REPORTING.

The MEDIAN is the middle value in the sequence if there is an odd number of values; if the NUMBER REPORTING is an even number, the MEDIAN is the higher of the two middle values. If the number responding is less than 3, the median is not computed.

The LOWER QUARTILE (25%) is that number below which 25% of the responses fall. It is produced by dividing the number reporting by 4.

The UPPER QUARTILE (75%) is that number below which 75% of the responses fall. It is produced by dividing the number reporting by 4 and then multiplying by 3.

Fifty percent of the responses fall between the LOWER QUARTILE and the UPPER QUARTILE.

Rules Regarding Specific Questions

1. Fiscal year. If stated fiscal year ends after the date the questionnaire is completed, assume a typo on the year. Enter earlier date.
2. Central Library (Q5-7). If library has no branches and no bookmobiles, assume a single, central library.
3. Staff (Q10-12). Recompute to sum 10 and 11.
4. Financial Information (Q13-17, 19-23). Convert Canadian dollars to U.S. based on the exchange rate of 12/31. For 1991, this was \$1.16.
Enter income and operating expenditures exactly as reported, rounding decimals to nearest dollar.
5. Annual counts (Q 29-33). If no branch or central breakouts are given, report items only in "Total" column.
If only central breakouts are reported for a single unit library, repeat figures in "Total." If only branch breakouts are reported and there is no central library, repeat figures in "Total."

Appendix C — Customized Data Service

In addition to the publication of the annual statistical reports, the Public Library Data Service offers Customized Reports tailored to individual needs. All five years of information currently in the database (1987-1991) are available for searching.

Examples of basic customized reports would be:

- a list of libraries serving similar population sizes sorted by a variable of choice such as budget, staff size, or number of branches;

- recalculation of the data for a group of libraries, such as circulation per staff member for libraries serving populations between 175,000 and 225,000;

- a five-year summary for a library or group of libraries.

The fee for a basic report is \$35.00 for PLDS participants and \$70.00 for non-PLDS participants. For more extensive reports, including more variables or graphics, additional time will be billed at an hourly rate of \$25.00 for PLDS participants and \$50.00 for non-

participants. A not-to-exceed estimate will be made; only actual time is billed. Reports are available with a three-day turn around and will be sent via FAX or Federal Express upon request (requester to cover cost).

To order a PLDS Customized Report, send this form to the PLDS Project, School of Library and Information Studies, University of Wisconsin—Madison, 600 N. Park Street, Madison, WI 53706 or FAX it to 608-263-4849. For more information, phone the Library Evaluation and Development Center, 608-265-2486.
